Architects and Engineers : Modes of Cooperation in the Interwar Period, 1919-1939

Roland May

Birkhauser (HGV) | 9783035623253

€51.95 | HB | 160.pp | October 2022

In the first decades of the 20th century, civil engineers were widely seen as a role model for future architects. Their role within the contemporary architecture movements, however, was hardly discussed. To this day, even fundamental questions about collaborations, rivalries, or conflicts between the two sister disciplines still await answers.
